Product highlights

50 mm speaker driver
The 50 mm speaker driver combines the sensitivity of composite Mylar material with the power of neodymium for the magnetic circuit to deliver powerful, distortion-free sound.

Ergonomically shaped cushions
The ergonomic earcushion shape and luxurious materials ensure a more comfortable fit and better bass performance thanks to reduced audio leakage.

LC-OFC cable
The extremely pure copper used for this cable minimizes transmission losses and delivers superb signal quality to the headphone, and pure sound to your ears.

Single-sided cable
The cable is conveniently connected to just one side, considerably reducing the risk of tangling and simplifiying winding the cable up for storage.

4 meter detachable cable
A detachable cable is both convenient to store and easy to replace, so there is no need to buy a new headphone if the cable ever breaks.

Easy adjustable headband
The easily adjustable mechanism provides a comfortable close fitting acoustic seal between the ear cushion and ear, ensuring optimal performance.

Breathable headband
The extensively cushioned 'Auto Fit' head band with integrated breathable mesh, ensures you stay cool & comfortable during prolonged periods of use.

Unique cable locking mechanism
Paying attention to even the smallest detail, the acoustic engineers refined the design of the locking mechanism to ensure the detachable cable does not accidentally come lose.
